Based on the book of the same name, *Circle Solutions for Student Wellbeing* provides a clear and effective process for teaching and learning that incorporates the principles of Agency, Safety, Positivity, Inclusion, Respect and Equality.

Schools using Circle Solutions are finding this is an effective way of developing positive relationships, enhancing resilience and encouraging students to take responsibility for the emotional climate of their classroom. The framework is appropriate for all ages.

This workshop is interactive, experiential and playful, so participants fully understand why we need this and how to facilitate a Circle effectively.
